

# COMFORT AIR<sup>®</sup>

## Air-Purifying Respirators

Comfort and Compatibility for the ultimate low-profile solution.

### SPECIAL DESIGN FEATURES:

- Low Breathing Resistance – Extra large inhalation ports and unique cartridge design provide easy breathing.
- Gentle No-Slip Seal – Textured inner surface prevents slipping while the wide inner flange forms a gentle seal that conforms to a wide range of faces.
- High Compatibility – Cartridges can be attached in three different positions, maximizing compatibility with eye and face protection.
- Enhanced Field of View – Sits low on the face to allow for better visibility in all directions, preventing accidents.
- Easy Maintenance – Simple design allows for easy cleaning, while replaceable parts extend product life and maximize value.
- Long Term Comfort – Close fitting design and exclusive corrugated exhale valve help eliminate dead air, enhancing wearer comfort.

No-Slip Seal

Saf-Twist™ Connector

Low Breathing Resistance

The ultimate low-profile solution!

NIOSH

Combine Comfort-Air<sup>®</sup> with Diskit™ filters for the ultimate low profile solution!

## Comfort and Compatibility

## Comfort-Air Series 100 Half Mask

	Part No.	Description
