

THE BEST SECURITY FOR YOUR TRAILER OR RV.

Prevent theft of semi-trailers and valuable cargo with the new King Pin lock from Master Lock. The lock fastens to the king pin of an unattended trailer and blocks attempts to hook to an unauthorized tractor.

The Master Lock King Pin Lock has many advantages that increase security and convenience for your fleet:

- Constructed of solid, cast aluminum alloy, the housing is engineered to withstand physical attacks, yet weighs only 2,8 kg making it easy to carry.

- The lock, protected by the housing, is designed to resist common attempts to defeat standard locks.

- No accessible shackle to cut.

- Hardened steel bottom plate resists drill attacks and any attempts to pull the cylinder from the lock.

- Chisel attempts are fruitless with the countersunk rivets holding fast.

- Also available keyed alike and master keyed for your convenience.

- The handle makes it easy to carry and easy to keep your hands clean.

- The durable bright red powdercoat finish and the red flag is visible to the driver from a distance.

CONSIDER THE MASTER LOCK ADVANTAGES:

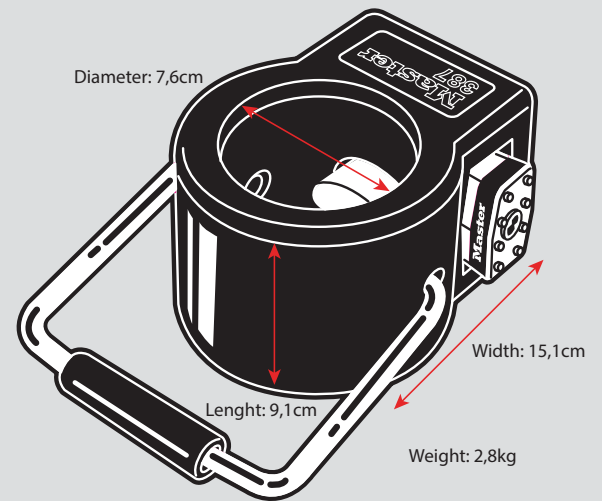

- High grade aluminum is lightweight while providing high security
- High visibility red body and durable flag alert drivers that lock is attached
- Includes an integrated No. 5 laminated steel lock with all of its security and keying flexibility
- Prevents from theft and deter break-in's

387

Master Lock makes complete trailer security even more convenient with many keying options:

- Keyed Different.
- Keyed Alike so the entire fleet is secured and yet accessible with single key convenience.
- Master Keyed so each lock opens with its unique key and fleet supervisors have a master key that will open all of them.
- Match an existing or new Master Lock padlock system: key the King Pin Lock the same as padlocks on trailer doors, yard gates, and storage units on site.
